Stainless Steel Tank
Product Change Notice

Product Change Overview

Unist has recently updated the design for small stainless steel tanks commonly used as an economy option for a pressurized fluid source. The new tank includes all of the same functionality as the previous 3 gallon version, but does so with an improved look and a convenient 4 gallon capacity. As an added benefit, the new 4 gallon tank has a working pressure of up to 130 psi, compared to the 50 psi working pressure limit on the older 3 gallon version. The new 4 gallon tank will begin replacing the 3 gallon tank in Q2 of 2020 and the 3 gallon option will no longer be available.

New 4 gallon stainless steel tank

Old 3 gallon stainless steel tank

New 4 Gallon Stainless Steel Tank Features & Options

- 130 psi [9 bar] maximum working pressure
- Stainless steel construction
- Fluid sump strainer
- Large opening lid closure
- Convenient carrying handle
- 4 gallon fluid capacity
- Optional low level switch with M12 connector
- Optional 0-50 or 0-125 psi [0-8.6 bar] pressure regulator
- Configurable outlet tube size connection

Product Change Notice

New 4 Gallon Stainless Steel Tank Part Number Scheme

T04S**V**-**WWXXYY**-N**Z**

V = Pressure Output
0 = Atmosphere (reservoir)
1 = 0-50 psi [0-3.4 bar]
2 = 0-125 psi [0-8.6 bar]

WW = Level Switch
N = None
L = Low level switch

XX = Air Output Tube Size
05 = 5/32”
08 = 1/4”
12 = 3/8”
81 = 1/8” NPT
82 = 1/4” NPT

YY = Fluid Output Tube Size
05 = 5/32”
08 = 1/4”
12 = 3/8”
81 = 1/8” NPT
82 = 1/4” NPT

Z = Teed Output
1 = Single fluid/air output(s)
2 = Teed fluid/air output(s)
